- 

---

### Projects/Experience

**À Voir À Faire:** <https://avaf.up.railway.app/>

This project is a community-run tourism website concept. It allows users to comment and add tourist sites they have visited in the past.

- MySQL, PHP, CSS, HTML, Git, GitHub, Railway

**Marketer, The Sales Ranch:** <https://www.thesalesranch.com/>

2021 - PRESENT

I currently run a small digital marketing agency where I help coaches and consultants get more high-ticket clients through email marketing.

**Teaching Assitant, Speak 14 Calvados:**

2019 – 05/2022

The goal of this job was to serve as an English teaching assistant in several schools across the Calvados region. It included preparing classes

for the students, teaching them, and creating and running an English club.

---

### Education

---

**MERN Course / The Odin Project**

09/2023 – 01/2024

After my Bachelor's degree, I took a self-paced course by The Odin Project. This course included working with HTML, CSS, Javascript, React, Node and Mongo DB. It also included the MongoDB online course.

**Bachelor's Degree in Computer Science /** Université de Caen Normandie

2019 – 05/2022

I majored in Mathematics in my first year. Then, I majored in Computer Science in my final two years.
